# Introducing Cockatiel Token

Besides being a meme token, Cockatiel Token is also a Launchpad developed by blockchain enthusiasts. Cockatiel helps with the necessary funding and support to launch new projects in the most efficient way.

# Cockatiel Token

Cockatiel Token is a community-driven DeFi project built on the Binance Smart Chain. The meme world has exploded in recent months. As Cockatiel Token family, we are stepping into the world of Memes. Apart from a meme token, our project will present great opportunities to Cockatiel Token holders by examining and researching upcoming projects and putting them on pre-sale on our own platform.

# Smart Contract Features

There is an automatic LP tax feature in every transaction. The reason for this is that the price does not fluctuate much in large purchases or sales. By holding Cockatiel Token, you can earn a passive income due to the statics reward feature. In the long run, Cockatiel Token's total supply will decrease and its value will increase because it has the feature of being burnt in every transaction.

# Cockatiel Token Utility

## Auto LP Generation (4%)

4% tax on each transaction is set aside to automatically generate liquidity inside PancakeSwap liquidity pools.

## Static Rewards (2%)

Holder will receive tokens through a static reflection; every transaction will be taxed 2% and distributed to holders.

## Burn (2%)

2% will automatically go to the burn wallet. This means that in the long run, the total supply will decrease and the price will rise.

# Why Cockatiel Token?

With the rapidly developing blockchain technology, this field is not without its problems. Cockatiel Token has an ecosystem that produces solutions to these problems. There are also negative situations in the blockchain industry. Scams are becoming more common with this trend. Cockatiel Token plans to eliminate these issues with its own launchpad. Our main goal in this protocol is to create opportunities for our users to feel safe with new projects with low fees and secure transactions.

# Entertainment

In order to make Cockatiel Token more active, we have released fun games on Google Play Store and App Store. These games will be more different and advanced over time. Rewards and passive income will increase. This will be positive for our token in the long run.

# Cockatiel TV

Our mobile application named Cockatiel TV consists of two parts. Our news section offers a great opportunity for those who want to be updated about cryptocurrencies and blockchain technology. The other section will be a platform where new projects will be able to advertise themselves. In short, you can both learn about the current news about crypto and be aware of new projects. Our application is absolutely free and will not be paid in any way.

# Flappy Cockatiel

Our game called Flappy Cockatiel is for entertainment purposes only. Weekly rewards will also be distributed. You can win the \$50 prize by breaking the record of the week in the game.
